

# Klever M/T KR29

The Kenda Klever M/T is an excellent choice for off-road enthusiasts or individuals that require a high traction tire. The scalloped shoulder blocks are staggered to ensure improved traction in loose or soft surfaces, and the specially formulated chip and cut resistant, off-road tread compound is engineered for long life. Constructed with Kenda DESB® (debris ejecting, suction breaking) ridges, the Klever M/T ensures rocks, mud and debris are ejected and not caught between tread elements. The continuous shoulder sidewalls provide significant additional traction and extreme sidewall protection. Our full depth sipes in the tread blocks also ensure improved traction on wet and snow covered surfaces. Cut your own path with Kenda Klever M/T.

**Total Sizes:** 22 Sizes  
3 ply sidewall select sizes  
**Series:** 85 - 60 & Flotation  
**Sizes:** 22, 20, 18, 17, 16, 15  
**Load Ranges:** C, D, E  
**Speed Rating:** Q

Low rubber to void ratio & compounding for high traction and excellent climbing and off-road traction

Variable shoulder block design improves wear and increases ride comfort with low road noise

Stone ejector bar effectively promotes self-cleaning, enhances traction and improves durability.

Tread block sipes with variable angels for improved edge effect, forward bite and lateral grip
